## ABOUT ME

I am a full-stack junior developer with experience building web applications. Currently seeking to be part of an experienced team eager to teach the highly-teachable.

---

## TECHNICAL SKILLS & PRACTICES

Ruby, Javascript (jQuery, AJAX)

Heroku, Git

Rails, Sinatra

HTML5, CSS

RSpec, Capybara, Jasmine

TDD, Agile, OOP, Pair Programming

SQL, ActiveRecord

---

## PROJECTS

### PingIt, PingIt Mobile

[pinggit.herokuapp.com](http://pinggit.herokuapp.com) | [github.com/teedang19/Ping](https://github.com/teedang19/Ping)

Rails application wherein users can create “pings” for social events. Users can navigate pings on an interactive map and filter by event categories. Uses GoogleMaps, geolocation data, OAuth (Facebook), WebSockets, DelayedJobs, and Redis. Also includes PingIt mobile: an integrated RubyMotion iOS application.

---

## EXPERIENCE

### Mentor — Dev Bootcamp, Chicago, IL

05/2014 - Present

Coach current students in web fundamentals through the same program I’ve completed. I gain valuable reinforcement through teaching as well as the opportunity to give back.

### Accounts Manager — Team Nissan, Vineland, NJ

10/2009 - 03/2014

Ensure business accounts, receivable and payable, are balanced and up-to-date.

---

## EDUCATION

### Dev Bootcamp - Chicago, IL

03/2014 - 05/2014

Completed a 21 week intensive course (12 weeks remote preparatory work, 9 weeks onsite) in web development, focusing on Ruby on Rails.

### American University - Washington, DC

09/2007 - 06/2009

Attended as a Frederick Douglass Full-Scholarship Recipient and Honors Student, majoring in Creative Writing and French Language.
